

How to Convert from ArcView to ArcGIS!

- ◆ Open ArcMap. Start a Blank Project.
- ◆ Drop down **File/ Import from ArcView Project**.
- ◆ Wizard Time!
 - **Browse** to the project you want to convert.
 - **Select** the layout you want to import (Neatest Layout)
 - The views associated with this layout will automatically be selected to import.

- Hit that **OK** button.
- **Save** the project (now a .mxd) to your directory.

- **You are on the cutting edge of Technology!!!!**
